## SECTION II - RISK FACTORS

### RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this Issue including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.

Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. Unless otherwise stated, the financial information of our Company used in this section is derived from our restated financial statements prepared in accordance with Indian GAAP and the Companies Act and restated in accordance with the SEBI ICDR Regulations.

To obtain a better understanding, you should read this section in conjunction with the chapters titled “Business Overview” beginning on page 89, “Industry Overview” beginning on page 80 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page 178 respectively, of this Draft Prospectus as well as other financial information contained herein.

The following factors have been considered for determining the materiality of Risk Factors:

- Some events may not be material individually but may be found material collectively;
- Some events may have material impact qualitatively instead of quantitatively;
- Some events may not be material at present but may have material impact in future.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, the financial information of the Company used in this section is derived from our financial statements under Indian GAAP, as restated in this Draft Prospectus. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled “Definitions and Abbreviation” beginning on page 4 of this Draft Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

#### INTERNAL RISK FACTORS

1. **There are litigations/legal and statutory issues involving our company. The outcome of such proceedings may materially affect our business and financial condition.**

As on date there are no litigations pending against the company or its Promoters. However in the recent past there have been certain developments which could possibly be litigated in the future. We cannot provide assurance that these probable legal proceedings will be decided in our favour. In the event these are not decided in our favour it may have an adverse effect on our business.

A summary of all the outstanding possible litigations is as follows:

Particulars	Total Number of cases	Amount Involved
<b>Under Tax laws</b>	1	10 lakhs (approximate)
<b>Under Civil Laws</b>		
Legal Notice received by the one of the Promoters of the Company regarding Trademark Registration	1	N.A.
Legal Notice received by one of the Promoters of the Company regarding	1	N.A.

design of a product		
Cases filed by the Promoters of the Company	2	N.A.

**Management Perception:** The Management of the Company is of the opinion that:

- In reference to the notice regarding the trademark: the trademark is already registered in the name of the Promoter of the Company.
- In reference to the notice regarding the design: the said design is already registered in the name of one of the Promoters of the Company.

For further details, please refer to section “Outstanding Litigations and Material Developments” on page 186 of this Draft Prospectus.

- We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, and the failure to obtain, retain and renew such approvals and licenses or comply with such rules and regulations, and the failure to obtain or retain them in a timely manner or at all may adversely affect our operations.**

We require several statutory and regulatory permits, licenses and approvals to operate our business, some of which our Company has either received, applied for or is in the process of application. Many of these approvals are granted for fixed periods of time and need renewal from time to time. Non-renewal of the said permits and licenses would adversely affect our Company’s operations, thereby having a material adverse effect on our business, results of operations and financial condition. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all. Further, some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant permits, licenses or approvals.

Details of the approvals for which applications are yet to be made or which are pending before the appropriate authorities are more particularly mentioned in the chapter titled “Government and Other Approvals” beginning on page 192 of this Draft Prospectus. For further details, kindly refer chapters titled “Key Industry Regulations and Policies” and “Government and Other Approvals” beginning on pages 106 and 192 respectively of this Draft Prospectus.

- We have issued Equity Shares during the last year at a price that may be below the Issue Price.**  
We have issued certain Equity Shares in the last twelve months, at a price that may be lower than the Issue Price. Details of such issuances are given in the table below:

Date of Allotment	No. of Equity Shares	Issue Price In Rs.	Nature of Allotment	Allotted Person
January 29, 2018	790,000	Nil	Bonus Allotment	Allotted to all the Shareholders of the Company as on the date of allotment

For further details of equity shares issued, please refer to the section titled “Capital Structure” beginning on page 47 of this Draft Prospectus.

- There may be changes in the estimated project cost.**  
We propose to utilize a proportion of the Issue Proceeds for funding acquisition of acquisition of additional molds of chair, cupboard, table etc. at the existing manufacturing facilities of our Company located at A-7/36-39, South of G. T. Road Industrial Area, Electrosteel Casting Compound, Ghaziabad 201009, Uttar Pradesh. While we have received quotations from various vendors for the purchase of molds, we have not yet placed orders for the same. The actual procurement of molds may entail significant outlay of cash in addition to the timeframe involved in procuring them. We may have to revise our expenditure and fund requirements as a result of variations in cost estimates on account of variety of factors such as changes in our financial condition, business or strategy, change in quotation for molds, revision in purchase orders as well as external factors which may not be in our control and may entail rescheduling and revising the planned expenditure and funding requirement and increasing or decreasing the expenditure for a particular purpose from the planned expenditure at the discretion of our management.

Any delays or failure in the purchase of the molds and time and cost overruns may mean that we may not achieve the economic benefits expected from such investment which could impact our business, financial condition and results of operations. Further, we may have to revise our expenditure and funding requirements as a result of variations in costs, estimates, quotations or other external factors, which may not be within the control of our management. This may entail rescheduling, revising or cancelling planned

expenditure and funding requirements at the discretion of our Board.

For further details, kindly refer the section titled “Objects of the Issue” beginning on page 62 of this Draft Prospectus.

- 5. Some of our historical corporate secretarial records are not traceable.**  
Some of the Historical corporate records like incorporation documents, certain documents relating to transfer of shares etc. are not available in our corporate records. Accordingly, for information in this regard, contained in this Draft Prospectus, we have relied on publically available data of our Company. We cannot assure you that these documents will be available in the future or that we will not be subject to any penalties imposed by the relevant regulatory authority in this respect.
- 6. We have conducted Annual General Meetings of our Company in violation of the provisions of the Companies Act.**  
In conducting the Annual General Meetings for the years 2010 to 2017 we have violated certain provisions of Section 96 of the Companies Act 2013/Section 166 of Companies Act, 1956. This violation requires approaching the Regulatory authorities for compounding which will entail monetary penalties on our Company.
- 7. Our top ten clients account for more than a quarter of our revenue.**  
For the financial year ended March 31, 2017 and for the ten months period ended January 31, 2018, our top ten clients/distributors accounted for approximately 25.36% and 31.17% of our revenue from operations. We cannot assure you that we can maintain the historical levels of business from these clients/distributors or that we will be able to replace these clients/distributors in case we lose any of them. Furthermore, major events affecting our clients/distributors, such as bankruptcy, change of management, mergers and acquisitions in other cases could impact our business. If any of our major client/distributor becomes bankrupt or insolvent, we may lose some or all of our business from that client/distributor and our receivable from that client/distributor would increase and may have to be written off, impacting our income and financial condition.
- 8. Our Company has availed unsecured loans from Mr. Sushil Kumar Aggarwal and Mr. Sahil Aggarwal Promoters of our Company, which are repayable on demand.**  
Our Company has availed unsecured loans from Mr. Sushil Kumar Aggarwal and Mr. Sahil Aggarwal, Promoters of our Company, which are repayable on demand. As on January 31, 2018, the balance of the said unsecured loans is Rs. 59.27 lakhs. Any demand for repayment may adversely affect our cash flow. In the event that the Promoters from whom we have availed unsecured borrowings, call in such loans in future, we would need to find alternative sources of financing, which may not be available on commercially reasonable terms or at all. For further details please refer to Chapter titled “Financial Indebtedness” beginning on page 184 of this Draft Prospectus.
- 9. Our business is subject to a variety of safety, health and environmental laws, labour, and workplace related laws and regulations. Any failure on our part to comply with these applicable laws and regulations could have an adverse effect on our operations and financial condition.**  
Our Company is subject to various central, state and local environmental and safety laws. While we believe that our facility is currently in compliance in all material respects with applicable environmental laws, legislations and regulatory requirements, additional costs and liabilities related to compliance with these laws and regulations may impact our business. For further details, kindly refer the chapter ‘Government and Other Approvals’ beginning on page 192 of this Draft Prospectus. Further, any changes in the applicable laws and regulations in the future may create substantial environmental compliance or remediation liabilities and costs, including monetary fines, criminal penalties on our Company’s officers for violation of applicable laws, or imposition of restrictions on our Company’s operations (which may include temporary suspension or closure of its operations). We may also, in the future, become involved in legal or regulatory proceedings, in relation to which we may be required to comply with more rigorous environmental or safety standards, or to incur significant capital and operating expenses and / or remedial costs. These factors may adversely affect our revenues and operations. Since we need labour to run our manufacturing units, our Company is subject to variety of workplace related laws and regulations. We are required to maintain records and also file periodic returns in relation to the same. Although, we believe that we have complied with all the applicable laws and regulations, in the event of any breach of such laws and regulations, we may be subject to penal consequences which would adversely affect our operations and financial condition.
- 10. M/s Bonita Furniture Private Limited, our Promoter Group Company has objects similar to that of our Company’s business and is engaged in the same and/ or similar line of business / industry in which our Company operates.**

M/s Bonita Furniture Private Limited, our Promoter Group Company is engaged in the same and / or similar line of business / industry in which our Company operates and could offer services that are related to the business of our Company. Further, our Promoter Mrs. Anita Aggarwal, is also on the board of Bonita Furniture Private Limited. This may be a potential source of conflict of interest in addressing business opportunities, strategies, implementing new plans and affixing priorities. As on date, there are no non-compete arrangements in order to avoid the conflict of interest envisaged above.

**Management Perception:** In this regard we would like to clarify that even though M/s Bonita Furniture Private Limited, is engaged in same line of business i.e. manufacturing of plastic molded furniture, still there is no apparent conflict of interest in real sense because the products manufactured by M/s Bonita Furniture Private Limited are solely for consumption or onward sale by our Company. Together, the two Companies complement each other and enable the group to offer a wider portfolio of products giving us a competitive edge.

- 11. Our Promoters and some of our Directors have interests in our Company other than the reimbursement of expenses and normal remuneration or benefits. Any such interests may result in a conflict of interest, which may have an adverse effect on our business.**

Our Promoters and Directors being Mr. Sushil Kumar Aggarwal, Mrs. Anita Aggarwal and Mr. Sahil Aggarwal may be deemed to be interested in our Company, in addition to regular remuneration or benefits and reimbursements of expenses, to the extent of Equity Shares held by them, their relatives, their dividend or bonus entitlement, benefits arising from their directorship in our Company, and to the extent of sitting fees payable to them for attending each of our Board and Committee meetings. Some of the above interests may conflict with the duties of these persons as Promoters / Directors of the Company. For further details, kindly refer the chapters titled “Our Management” and “Our Promoters and Promoter Group” beginning on pages 118 and 130, respectively of this Draft Prospectus.

- 12. Our success depends largely upon the knowledge and experience of our Promoters and other Key Managerial Personnel. Any loss of our key managerial personnel or our ability to attract and retain them could adversely affect our business, operations and financial condition.**

Our Promoters Mr. Sushil Kumar Aggarwal, Mrs. Anita Aggarwal and Mr. Sahil Aggarwal have several years of experience in the molded plastic furniture industry. Our Company depends on the management skills and guidance of our Promoters for development of business strategies, monitoring its successful implementation and meeting future challenges. Our Promoters, along with our key managerial personnel, who form an integral part of our Company, have over the years built relations with suppliers, customers and other key stakeholders associated with our Company. Our future performance will depend largely on our ability to retain the continued service of our management team. If one or more of our key managerial personnel are unable or unwilling to continue in his / her present position, it could be difficult for us to find a suitable or timely replacement and our business could be adversely affected. Further, since the demand for the key managerial personnel is very robust, in order to retain them, our Company may be required to offer them higher compensation packages by way of higher pay and more perquisites. This may adversely affect our business, financial condition and results of operations.

- 13. Our Promoters and Promoter Group will continue to retain majority control over the Company after the Issue, which will allow them to influence the outcome of matters submitted to shareholders for approval.**

Upon completion of the Issue, our Promoters and Promoter Group, will continue to hold a substantial portion of the post-Issue Equity Share capital of our Company. As a result, our Promoters will have the ability to exercise significant influence over all matters requiring shareholders’ approval. Accordingly, our Promoters will continue to retain significant control, including being able to control the composition of our Board of Directors, determine decisions requiring simple or special majority voting of shareholders, relating to any sale of all or substantially all of our assets, timing and distribution of dividends and termination of appointment of our officers, and our other shareholders may be unable to affect the outcome of such voting. There can be no assurance that our Promoters will exercise their rights as shareholders to the benefit and best interests of our Company. Further, such control could delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of our Company even if it is in our Company’s best interest. The interests of our Promoters could conflict with the interests of our other equity shareholders, and the Promoters could make decisions that materially and adversely affect your investment in the Equity Shares.

- 14. Any variation in the utilisation of the Net Proceeds or in the terms of any contract as disclosed in the Prospectus would be subject to certain compliance requirements, including prior shareholders’ approval.**

Our Company intends to primarily use the Net Proceeds from the Issue for a. acquisition of additional molds of chair, cupboard, table etc. at the existing manufacturing facilities of our Company located at A-

7/36-39, South of G. T. Road Industrial Area, Electrosteel Casting Compound, Ghaziabad 201009, Uttar Pradesh; b. To meet the incremental working capital requirements; and c. General Corporate Purpose, for details kindly refer to “Objects of the Issue” starting from page 62 of this Draft Prospectus.

In case of any exigencies arising out of business conditions, economic conditions, competition or other factors beyond our control which adversely affect our business, we may require to use the Net Proceeds to meet any other expenditure or fund which expenditure cannot be determined with certainty as on the date of this Draft Prospectus. In terms of Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilisation of the Net Proceeds or in the terms of any contract as disclosed in the Prospectus without obtaining the shareholders’ approval through a special resolution. In the event of any such circumstances requiring us to undertake variation in the utilisation of the Net Proceeds disclosed in the Draft Prospectus, we cannot assure that we will be able to obtain the shareholders’ approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders’ approval may adversely affect our business or operations.

Further, our Promoters would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to change the objects of the Issue. Additionally, the requirement on Promoters to provide an exit opportunity to such dissenting shareholders may deter the Promoters from agreeing to the variation of the proposed utilisation of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by SEBI.

In light of these factors, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Fresh Issue, if any, or vary the terms of any contract referred to in the Draft Prospectus, even if such variation is in the interest of our Company. This may restrict our Company’s ability to respond to any change in our business or financial condition by re-deploying the unutilised portion of Net Proceeds, if any, which may adversely affect our business and results of operations.

**15. The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.**

Since the Issue size is less than Rs. 10,000.00 Lakh there is no mandatory requirement of appointing an independent monitoring agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

**16. Some of our properties from which we carry out our business operations are not owned by.**

The Company’s godowns at Ghaziabad and Bhiwandi are not owned by the Company and are being used based on short term lease agreements. These agreements are renewable based on the terms of the agreement. Periodic renewals of short-term rent agreement may increase our costs, since they are subject to rent escalation. Further, if we are unable to renew the agreements pursuant to which we occupy the premises on terms and conditions acceptable to us, or at all, we may have to relocate to other places and if we relocate our godowns as a result of any termination or non-renewal of our leases and rentals, we may incur additional cost as a result of such relocation.

Further, certain of our lease/rent agreements may have not been registered with local authorities or may not be duly registered as per applicable law. Consequently, we may not be able to enforce these leases in the event of default on behalf of the lessor. We may also be required to make additional stamp duty or similar payments for certain of our lease agreements that may currently be insufficiently stamped, which could have an adverse effect on our business, results of operations, cash flows and financial condition.

For further details, please refer chapter titled “Business Overview” beginning on page 89 of this Draft Prospectus.

**17. If we are unable to adapt to technological changes coupled with changes in market conditions, demands and requirements of our customers, or to identify and understand evolving industry preferences and manufacture new products to meet our customers’ demands, our business and results of operations may be adversely affected.**

Our future success will depend in part on our ability to respond to technological advances and changes in market conditions, demands and the requirements of our customers and also changes in the businesses in which we operate, on a cost-effective and timely basis. Any advancements, changes or up gradation in the present technology being used by us may render the present technology obsolete and may require us

to incur additional capital expenditure for upgrading our facilities and equipment so as to compete with our competitors. To compete effectively in the industry, we must be able to develop new products to meet our customers' demand in a timely manner. In the event that we are not able to respond to such technological advancements or changes and demands of our customers in a timely manner, we may become less competitive thereby adversely affecting our business, results of operations and financial condition.

**18. We face competition in our business from organized and unorganized players, which may adversely affect our business operation and financial condition.**

We may have to confront pressures in respect of pricing; product quality etc. from the clients and such pressures may put strain on our profit margins, which may consequently affect the financial position of our Company. Competition emerges not only from the organized sector but also from the unorganized sector and from both small and big players. Our Competitiveness is also measured by the technology we adopt as the industry is rapidly growing in India. Our inability to compete with this intense competition; will have material adverse impact on our Company's financial position.

**19. We have not made any alternate arrangements for meeting our regular working capital requirements. If our operations do not generate the necessary cash flow, our working capital requirements may negatively affect our operations and financial performance.**

As on date, we have not made any alternate arrangements for meeting our working capital requirements. We meet our working capital requirements through internal accruals. Any shortfall in internal accruals and our inability to raise debt would result in us being unable to meet our working capital requirements, which in turn will negatively affect our financial condition and results of operations.

**20. There have been instances of incorrect / delayed filings in the past with the RoC. If the authorities impose monetary penalties on us or take certain punitive actions against our Company in relation to the same, our business, financial condition and results of operations could be adversely affected.**

There are some of the instances of non compliances/delay in compliances of the provisions of the Companies Act due to some clerical mistakes in documents and forms filed with the Registrar of Companies and on account of filing of some forms with requisite additional fees.

In case cognizance of the above errors is taken by the concerned authorities, our Company and its officers in default may be subjected to some monetary penalties.

**21. Our business is dependent on our operating facilities. The loss or shutdown of our facilities could have a material adverse effect on our business, financial condition and results of operations**

Our manufacturing facility is located at Ghaziabad, and is subject to operating risks, such as shutdowns due to the breakdown of power supply or processes, performance below expected levels of output or efficiency, labour disputes, strikes, lockouts, disruption by extremist groups, or any other reason, and the need to comply with the directives and regulations of the Government of India ("GoI") and relevant state government authorities. We are heavily reliant on our workers at unit. Our inability to continue to procure such services or any disputes with group of labour could severely affect our operations and may cause under-utilisation of our capacities or a total shut down.

Our results of operations are dependent on the successful operation of our manufacturing facility. Although we take precautions to minimize the risk of any significant operational problems at our facility, our business, financial condition, results of operations and prospects may be adversely affected by any disruption of operations at our manufacturing facility.

**22. We are dependent on third party transportation providers for the delivery of our finished products. Accordingly, continuing increases in transportation costs or unavailability of transportation services for them, as well the extent and reliability of Indian infrastructure may have an adverse effect on our business, financial condition, results of operations and prospects**

The molded furniture is manufactured in our facility and transported to dealers/distributors. We use third party transportation providers for the delivery. Transportation strikes could have an adverse effect on our receipt of raw materials and our ability to deliver our products to our customers.

In addition, transportation costs in India have been steadily increasing over the past several years. Continuing increases in transportation costs or unavailability of transportation services for our products may have an adverse effect on our business, financial condition, results of operations and prospects.

In addition, India's physical infrastructure is less developed than that of many developed nations, and problems with its road networks, electricity grid, communication systems or any other public facility could disrupt our normal business activity, including our supply of raw materials and the delivery of our products to dealers/distributors by third-party transportation providers. Any deterioration of India's physical

infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our business operations, which could have a material adverse effect on our results of operations and financial condition.

**23. Our cost of production is exposed to fluctuations in the prices of raw materials required for the manufacture of our products as well as their availability.**

Our company is exposed to fluctuations in the prices of raw material PPCP as well as its availability, particularly as we typically do not enter into any supply agreements with our suppliers and all the above mentioned raw material is are bought by our Company from various suppliers on order-to-order basis. The prices of the various raw material used in our manufacturing process is subject to fluctuations due to various reasons such as price of crude oil, increase in transportation costs, etc. We may be unable to make adequate provisions for the price fluctuations and, consequently, any adverse fluctuations that we have not factored in or provided for may adversely affect the results of our operations and our financial conditions.

We also face the risks associated with compensating for or passing on such increase in our cost of production on account of such fluctuations in prices to our customers. Particularly, we face the risk of our competitors being able to sell the products at lower rates than us due to their economies of scales, if we pass on the increase in the cost of production to our customers through a corresponding increase in the price of our products in order to maintain our historical margins. Upward fluctuations in the prices of the various raw materials may thereby affect our margins and profitability, resulting in a material adverse effect on our overall business, financial condition and results of operations. For further details of various raw materials required, see “Business Overview” on page 89 of this Draft Prospectus.

**24. The Trademark  is registered in the name of one of the promoters of the Company and is also a subject matter of probable dispute.**

The trademark  is currently registered in the name of one of our Promoters, Mrs. Anita Aggarwal. The said trademark is being used by the Company vide permission to use dated December 11, 2017, granted by Mrs. Anita Aggarwal. However, M/s Avon Cycles Limited, a Public Limited Company, incorporated under the Indian Companies Act, having its office at G.T. Road, Ludhiana, has, vide their Application for Rectification dated January 17, 2018, prayed for rectification/revocation/cancellation/confining of the aforementioned trademark. In the event the Mrs. Anita Aggarwal, the registered proprietor of the said Trademark, or the Company, on behalf of Mrs. Anita Aggarwal, is not able to pursue the matter to ensure continued registration of the stated trademark in her name, we may not be able to continue to use the said trademark, owing to which our business would be negatively impacted.

If the oppositions filed against our trademark, are successful, we may lose the statutory protection available to us under the Trade Marks Act, 1999 for such trademark. Further, we cannot assure that our registered trademark, will not be invalidated or circumvented. We are unable to assure that the future viability or value of any of our intellectual property or that the steps taken by us to protect the proprietary rights of our Company will be adequate.

There can be no assurance that the Promoter of our Company would continue to be the registered proprietor of the stated trademark. Further, in the event our Promoter is able to secure continued registration of the stated trademark in her name, there is no assurance that M/s Avon Cycles Limited will not institute any further legal proceedings to deter the Company / the Promoter from using the stated Trademark.

**25. We have not entered into any long term or definitive agreements with our raw material suppliers. Our inability to obtain raw material in a timely manner, in sufficient quantities and / or at competitive prices could adversely affect our operations, financial condition and / or profitability.**

Our business is dependent on our suppliers for procuring raw material required for manufacturing our products. Typically, we do not enter into long term contracts with our suppliers and prices for raw materials are normally based on the quotes we receive from various suppliers on an ongoing basis. Therefore, there are no fixed terms and conditions on which we purchase our raw materials. Further, fluctuations in the price, availability and quality of raw materials used in our manufacturing process, could have a material adverse effect on cost of sales or our ability to meet customer demands with respect

to pricing and quality. There can be no assurance that we will always be successful in our efforts to protect our business from the volatility of the market price of raw materials, and our business may be adversely affected by dramatic movements in the prices of raw materials. Discontinuation of production by these suppliers or a failure of these suppliers to adhere to the delivery schedule or the required quality could hamper our production schedule and the quality of our products. There can be no assurance that strong demand, capacity limitations or other problems experienced by our suppliers will not result in occasional shortages or delays in their supply of raw materials to us. Further, we cannot assure you that our suppliers will continue to be associated with us on reasonable terms, or at all. In the event that we fail to secure sufficient quantities of such raw materials from our suppliers at acceptable quality and prices in a timely manner, our business, financial performance and cash flows may be adversely affected. Further should there be any significant increases in prices of the raw materials used, and we are unable to pass on such increases in raw material prices to our customers or find alternative suppliers / sources for supply of raw materials at competitive prices, our business, operations and financial performance could be adversely affected. Further, such factors can also lead to delay in delivering our products to our customers in a timely manner or at all thereby exposing us to the risk of losing our customers or not obtaining repeat orders from them.

**26. Our lenders have charge over our movable and immovable properties in respect of finance availed by us.**

We have secured our lenders by creating charge over our movable and immovable properties. In the event of our default in repayment of the loans availed by us and any interest thereon, our properties may be forfeited by our lenders. For further information on the financing and loan agreements along with the total amounts outstanding, kindly refer the section titled “Financial Information” beginning on page 136 of this Draft Prospectus.

**27. Delays or defaults in customer payments could result in a reduction of our profits and cash flows.**

We often commit resources to orders prior to receiving advances or other payments from customers in amounts sufficient to cover expenditures on orders as they are incurred. We may be subject to working capital shortages due to delays in customer payments. If the customer defaults in their payments on an order, or cancel their orders for which we have devoted significant resources or incurred expenditure, it could have a material adverse effect on our business, financial condition, results of operations and cash flows and could cause the price of our equity shares to decline. Moreover, some of our products are made as per specifications provided by our customers. Hence, any last minute cancellations would also run the risk of not being able to sell those products to another customer. These events could have a material adverse effect on our revenues, results of operations and cash flows.

**28. Our Company’s inability to procure and / or maintain adequate insurance cover in connection with our business may adversely affect our operations and profitability.**

Our Company’s operations are subject to inherent risks and hazards which may adversely impact our profitability, such as breakdown, malfunctions, sub-standard performance or failures of manufacturing equipment, fire, third party liability claims, loss-in-transit for our products, accidents and natural disasters. At present Our Company’s insurance policies provide for coverage against risks such as Burglary, Fire and Special Perils. However, there can be no assurance that any claim under the insurance policies maintained by our Company will be honoured fully, in part or on time. While our Company maintains insurance coverage in amounts consistent with industry norms, the said insurance policies do not cover all risks, specifically risks such as loss of profits, and are subject to exclusions and deductibles. There can be no assurance that our Company’s insurance policies will be adequate to cover the losses in respect of which the insurance had been availed. If our Company suffers a significant uninsured loss or if the insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by our Company significantly exceeds its insurance coverage, our Company’s business, financial condition and results of operations may be materially and adversely affected. Further, there is no assurance that the insurance premium payable by our Company will be commercially viable or justifiable. For further details on the insurance policies availed by us, kindly refer the paragraph titled “Insurance” in the chapter titled “Business Overview” beginning on page 89 of this Draft Prospectus.

**29. We have entered into and may continue to enter into related party transactions in the future. As per our Restated Standalone Financial Statements, for FY ended March 31, 2017 and for the period ended January 31, 2018, the aggregate of such transactions was Rs. 399.83 Lakh, and Rs. 549.73 Lakhs respectively. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our Company’s financial condition and results of operations.**

Our Company has entered into certain related party transactions with its Promoters / Promoter Group Companies. Our Promoters, Directors and Key Managerial Personnel may also be deemed to be interested in our Company to the extent of the Equity Shares held by them, or their relatives, benefits deriving from their directorship in our Company and arising from transactions entered into between our Company and themselves as well as between our Company and our Promoter Group Company. While we believe that all

such transactions have been conducted on an arm's length basis, there can be no assurance that our Company could not have achieved more favourable terms had such transactions not be entered into with related parties. Furthermore, it is likely that our Company will enter into related party transactions in the future. For further details, kindly refer chapter titled "Related Party Transactions" beginning on page 171 of this Draft Prospectus.

**30. We are exposed to foreign currency exchange rate fluctuations, which may harm our results of operations, impact our cash flows and cause our financial results to fluctuate.**

Our financial statements are presented in Indian Rupees. However, the molds that are required by us are imported and are influenced by the currencies of geographies from where we import such molds. The exchange rate between the Indian Rupee and these currencies, primarily the USD, has fluctuated in the past and our results of operations and cash flows have been impacted by such fluctuations in the past and may be impacted by such fluctuations in the future. As the molds used by us in manufacturing of our products are imported, we believe that our cost of procurement of new molds may rise during a sustained depreciation of the Indian Rupee against the USD. We may, therefore, have to incur additional capital expenditure for procurement of molds on account of foreign currency fluctuations.

**31. Our Company has reported certain negative cash flows from its investing activity and financing activity and a consequent net decrease in cash and cash equivalents in some of the recent years.**

As per our Restated Standalone Financial Information, our cash flows from investing activities and financing activities were negative in the recent period and some of the Fiscals as set out below:

Particulars	For the period ended 31st January, 2018	For the year ended 31st March

If we are not able to generate sufficient cash flows, it may adversely affect our business and financial operations. For further details, see "Financial Information" beginning on page 136.

**32. Orders placed by customers may be delayed, modified, cancelled or not fully paid for by our customers, which may have an adverse effect on our business, financial condition and results of operations.**

We may encounter problems in executing the orders in relation to our products, or executing it on a timely basis. Moreover, factors beyond our control or the control of our customers, including delays or failure to obtain necessary permits, authorizations, permissions and other types of difficulties or obstructions, may result in the postponement of the delivery of products or cause its cancellation. Accordingly, it is difficult to predict with certainty if, when, and to what extent we may be able to deliver the orders placed. Failure to deliver products on time could lead to customers delaying or refusing to pay the amount, in part or full, which may adversely affect our business

In addition, even where a delivery proceeds as scheduled, it is possible that the contracting parties may default or otherwise fail to pay amounts owed. While we have not yet experienced any material delay, reduction in scope, cancellation, execution difficulty, delay or default in payment with regard to the orders placed with us, or any material disputes with customers in respect of any of the foregoing, any such adverse event in the future could materially harm our cash flow position and income. Any delay, modification, cancellation of order by our large customers may have material adverse effect on our financial condition and results of operations.

**33. Any disproportionate increase in labour costs including increase in wage/salary demand, labour unrest or labour claims arising from accidents may adversely affect our business operations and financial conditions.**

Our increasing business operations may require our employee strength to increase in future. In the past our Company has not experienced any labour unrest, but there is no assurance that it will not experience the same at any time in the future. Also, there is a possibility that the labour costs increase disproportionately due to increase in wage/salary demand. In this event, if our Company is unable to pass

on the increased costs to our customers, our business operations and financial conditions may be adversely affected.

**34. The funds proposed to be utilised for general corporate purposes constitute 12.25% of the Net Issue Proceeds**

The Company intends to use the Net Issue Proceeds for the purposes described in the section titled "Objects of the Issue" on the page 62 of this Draft Prospectus. Our Company intends to utilise Rs. 59.64 lakhs constituting 14.36% of the Net Issue Proceeds towards general corporate purposes. The Objects for which we will be using this amount would be determined by the Board at its discretion, in keeping with the interest of the Company. As of date, our Board has not yet authorised any specific commitments or acts, with respect to utilisation of the portion of the Net Issue Proceeds which will be used for the general corporate purposes.

**RISKS RELATED TO OUR EQUITY SHARES AND EQUITY SHARE HOLDERS**

**35. In the event there is any delay in the completion of the Issue, there would be a corresponding delay in the completion of the objects / schedule of implementation of this Issue which would in turn affect our revenues and results of operations.**

The funds that we receive would be utilized for the Objects of the Issue as has been stated in the Chapter "Objects of the Issue" on page 62 of this Draft Prospectus. The proposed schedule of implementation of the objects of the Issue is based on our management's estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue, we may have to revise our business, development and working capital plans resulting in unprecedented financial mismatch and this may adversely affect our revenues and results of operations.

**36. The requirements of being a public listed company may strain our resources and impose additional requirements.**

With the increased scrutiny of the affairs of a public-listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange which require us to file unaudited financial results on a half-yearly basis. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

**37. The Issue Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue.**

The Issue price is based on numerous factors and may not be indicative of the market price for our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. There can be no assurance that you will be able to resell your Shares at or above the Issue Price. Among the factors that could affect our Share price are: quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net profit and income; changes in income or earnings estimates or publication of research reports by analysts; speculation in the press or investment community; general market conditions; and domestic and international economic, legal and regulatory factors unrelated to our performance.

**38. The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.**

Prior to this Issue, there has been no public market for our Equity Shares. K K Securities Limited is acting as Market Maker for the Equity Shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors,

among others, could materially affect the price of our Equity Shares. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this Issue, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue. For further details of the obligations and limitations of Market Makers, please refer to the section titled “General Information” on page 38 of this Draft Prospectus.

- 39. There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder’s ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.**

Once listed, we would be subject to circuit breakers imposed by stock exchange, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

- 40. You will not be able to sell immediately on Stock Exchange any of the Equity Shares you purchase in the Issue until the Issue receives appropriate trading permissions.**

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. We cannot assure you that the Equity Shares will be credited to investor’s demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in the Draft Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance the Companies Act, 2013, in the event that the permission of listing the Equity Shares is denied by the stock exchange, we are required to refund all monies collected to investors.

- 41. Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.**

Any instance of sale of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

- 42. You may be subject to Indian taxes arising out of capital gains on sale of Equity Shares.**

Under current Indian tax laws and regulations, capital gains arising from the sale of Equity Shares in an Indian Company are generally taxable in India. Any gain realized on the sale of listed Equity Shares on a stock exchange will be subject to capital gains tax in India and also would also be subject to Securities Transaction Tax (“STT”). STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold.

For more details, please refer to “Statement of Tax Benefits” on page 72 of this Draft Prospectus.

- 43. Any future issuance of Equity Shares may dilute your shareholdings, and sales of the Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.**

Any future equity issuances by our Company may lead to the dilution of investors’ shareholdings in our Company. In addition, any sale of substantial Equity Shares in the public market after the completion of this Issue, including by our major shareholders, or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could significantly impair our future ability to raise capital through offerings of the Equity Shares. We cannot predict what effect, if any, market sales of the Equity Shares held by the major shareholders of our Company or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

- 44. Our Company has not paid any dividends till now and there can be no assurance that we will pay dividends in future. Our ability to pay dividends in the future will depend upon a variety of factors such as future earnings, financial condition, cash flows, working capital requirements, and restrictive covenants in our financing arrangements.**

Our Company has not paid any dividends till now and there can be no assurance that we will pay dividends in future. Our ability to pay dividends in the future will depend on our earnings, financial condition and capital requirements. Dividends distributed by us will attract dividend distribution tax at rates applicable from time to time. There can be no assurance that we will generate sufficient income to cover our operating expenses and pay dividends to our shareholders, or at all. Our ability to pay dividends could also be restricted under the existing or certain financing arrangements that we may enter into.

## EXTERNAL RISK FACTORS

**45. Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.**

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended / changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

**46. Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.**

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, financial condition, results of operations, cash flows and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For instance, the Companies Act 2013, several provisions of which (including rules issued thereunder) contain significant changes to Indian company law, including in relation to the issue of capital by companies, related party transactions, corporate governance, audit matters, shareholder class actions, restrictions on the number of layers of subsidiaries and corporate social responsibility. Compliance with such requirements may require significant financial and administrative resources, and any failure to comply may adversely affect our business and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future. If a determination is made that we were in violation of such laws, rules or regulations, including conditions in the permits required for our operations, we may have to pay fines, modify or discontinue our operations, incur additional operating costs or make capital expenditures and our business, financial positions, results of operations or cash flows could be adversely affected. For details on the laws currently applicable to the Company kindly refer the chapter titled “Key Industry Regulations and Policies” beginning on page 106 of this Draft Prospectus.

**47. Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.**

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- custom duties on imports of raw materials and components;
- national goods and service tax (GST); and
- Other new or special taxes and surcharges introduced on a permanent or temporary basis from time to time.

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

**48. We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and plastic industry contained in this Draft Prospectus.**

While facts and other statistics in this Prospectus relating to India, the Indian economy and the plastic industry has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled ‘Industry Overview’ beginning on page 80 of this Draft Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

**49. The extent and reliability of Indian infrastructure could adversely affect our Company’s results of operations and financial condition.**

India’s physical infrastructure is in a developing phase, as compared to that of many developed nations.

Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

**50. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.**

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

**51. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.**

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

**52. Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.**

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

**53. A slowdown in economic growth in India and globally could cause our business to suffer.**

We are highly dependent on prevailing economic conditions in India and globally and our results of operations are significantly affected by factors influencing the Indian and global economy. A slowdown in the economy and per capita income could adversely affect our business, including our ability to grow our assets, the quality of our assets, and our ability to implement our strategy. Factors that may adversely affect the Indian and global economy and per capita income, and hence our results of operations, may include:

- any increase in Indian interest rates or inflation;
- any scarcity of credit or other financing;
- prevailing income conditions among Indian and global consumers and corporations;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- variations in exchange rates;
- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- prevailing regional or global economic conditions; and
- other significant regulatory or economic developments in or affecting India and other countries.

Any slowdown in the Indian or global economy and per capita income or in the growth of the sectors we participate in or future volatility in global commodity prices could adversely affect our borrowers and contractual counterparties. Specifically, it has been seen that in our industry, that general correlation exists between demand for pharmaceuticals and per capita income, and therefore any slowdown in per capita income would adversely affect the Indian pharmaceutical market, as well as our business. This in turn could adversely affect our business and financial performance and the price of our Equity Shares.

**54. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.**

Under the foreign exchange regulations currently in force in India, transfers of shares between non-

residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection / tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

**55. Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.**

India has experienced natural calamities such as earthquakes, tsunami and floods in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

**56. Regional hostilities, terrorist attacks, communal disturbances, civil unrest and other acts of violence or war involving India and other countries may result in a loss of investor confidence and adversely affect the financial markets and our business.**

Terrorist attacks, civil unrest and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. In addition, the Asian region has from time to time experienced instances of civil unrest and hostilities among neighboring countries. Hostilities and tensions may occur in the future and on a wider scale. Military activity or terrorist attacks in India may result in investor concern about stability in the region, which may adversely affect the price of our Equity Shares. Events of this nature in the future, as well as social and civil unrest within other countries in Asia, could influence the Indian economy and could have an adverse effect on the market for securities of Indian companies, including our Equity Shares.

**57. The occurrence of natural disasters may adversely affect our business, financial condition and results of operations.**

The occurrence of natural disasters, including hurricanes, floods, earthquakes, tornadoes, fires and pandemic disease may adversely affect our financial condition or results of operations. The potential impact of a natural disaster on our results of operations and financial position is speculative, and would depend on numerous factors. The extent and severity of these natural disasters determines their effect on the Indian economy. An outbreak of a communicable disease in India would adversely affect our business and financial conditions and results of operations. We cannot assure you that such events will not occur in the future or that our business, financial condition and results of operations will not be adversely affected.

#### World Economic Outlook

##### The Global Recovery Has Strengthened

The cyclical upswing underway since mid-2016 has continued to strengthen. Some 120 economies, accounting for three quarters of world GDP, have seen a pickup in growth in year-on-year terms in 2017, the broadest synchronized global growth upsurge since 2010. Among advanced economies, growth in the third quarter of 2017 was higher than projected in the fall, notably in Germany, Japan, Korea, and the United States. Key emerging market and developing economies, including Brazil, China, and South Africa, also posted third-quarter growth stronger than the fall forecasts. High-frequency hard data and sentiment indicators point to a continuation of strong momentum in the fourth quarter. World trade has grown strongly in recent months, supported by a pickup in investment, particularly among advanced economies, and increased manufacturing output in Asia in the run up to the launch of new smartphone models. Purchasing managers' indices indicate firm manufacturing activity ahead, consistent with strong consumer confidence pointing to healthy final demand.

##### Overview of the Economy

The year 2017-18 was marked with strong macro-economic fundamentals. However, the growth of gross domestic product (GDP) moderated in 2017- 18 vis-à-vis 2016-17. There was an improvement in export growth, fiscal trends remained attuned to the consolidation plans and inflation remained within the limits. The year also witnessed an increase in global confidence in Indian economy as well as improvement in ease of doing business ranking.

Various economic reforms were undertaken in the year which include: implementation of the Goods and Service Tax, announcement of bank recapitalization, push to infrastructure development by giving infrastructure status to affordable housing, higher allocation of funds for highway construction and greater focus on coastal connectivity. Further initiatives include: lower income tax for companies with annual turnover up to 50 crore; allowing carry-forward of MAT credit up to a period of 15 years instead of 10 years at present; further measures to improve the ease of doing business; and, major push to digital economy.

Other sectoral initiatives undertaken include: measures to revive the construction sector and promotion of exports in textile and apparel industry. Apart from these, the measures that were taken by the Government in the previous years to boost manufacturing, employment generation, improving ease of doing business and transparency via schemes such as Make-in-India, Skill India, direct benefit transfer and measures for financial inclusion were also taken forward in 2017-18.

An important macro-economic challenge faced by the Indian economy relates to the declining trend in the investment and saving rates, as seen from the latest available data. Nonetheless, medium-term macro outlook remains bright against the background of implementation of GST, green shoots in the global economy, relatively stable prices and improvement in indicators of external sector.

## GLOBAL PLASTIC MARKET

### Global plastics market to register CAGR of 7.03% from 2017 to 2025

Global plastics market is projected to grow at a CAGR of 7.03% from 2017 to 2025, as per Orian Research. Plastics are used in a variety of industries: construction, packaging, appliance, automobile, textile, transportation, and many others. A large number of manufacturers supply many different products to numerous end-users for a multitude of applications. The major drivers for plastics market would be its low cost, flexibility of use, easy manufacturing capabilities, growing construction in Asia-Pacific region among others. Thus, plastics can be regarded as synthetic or semi-synthetic organic solids which can be transformed into several useful products. Also, the paradigm shift of technology to recycle plastics for end-use applications provide significant opportunities to the entire supply chain of the plastics market.

Polyethylene is derived from polymerization of ethylene and has the properties like chemical & thermal resistivity, flexibility, electrical & thermal insulation among others. Due to its light weight and easy manufacturing capability, polyethylene has found applications in various industries such as construction, electronics, and automotive. The polyethylene market is projected to grow at a considerable CAGR in the emerging economies. Also, the demand from different domains such as injection moulding, food & beverages and packaging has fuelled the demand. On the other hand, Polyethylene terephthalate (PET) is projected to grow at a significant CAGR during the forecast period (2017-2025).

Asia Pacific plastics market is projected to account for a share of around 45% of the global plastics market by 2025. The growing automotive and construction sectors in countries such as India and China with the adoption of rapid technological advancement has significantly boosted Asia-Pacific's plastics market. Presence of major automotive industries in Germany and France should drive European plastics market along with the growing demand for high performance and environmental friendly plastics materials such as bio-based plastics and engineering thermoplastics. Also, the Central & South American region is projected to grow at a considerable CAGR during the forecast period.

Such potential Indian market has motivated the entrepreneurs in the country to acquire technical expertise, achieve high quality standards and build capacities in various facets of the booming plastic industry. The Phenomenal developments in the plastic machinery sector is coupled with the developments in the petrochemical sector, both of which support the plastic processing sector. This has facilitated the plastic processors to build capacities for the service of both the domestic market and the markets overseas. Today Indian Plastic processing sector comprises of over 30,000 units involved in producing a variety of items through injection moulding, blow moulding, extrusion and calendaring. The capacities built in most segments of this industry coupled with inherent capabilities has made us capable of servicing the overseas markets. The Indian plastic industry has taken great strides and in the past few decades, the industry has grown to the status of a leading sector in the country with a sizable base.

Plastic material is gaining notable importance in different spheres of activity and the per capita consumption is increasing at a fast pace. Continuous advancements and developments in Plastic technology, processing machineries, expertise, and cost effective manufacturing is fast replacing the typical materials. On the basis of value added share, the Indian Plastic industry is about 0.5% of India's GDP. The export of plastic products also yields about 1% of the country's exports. The sector has a large presence of small scale companies in the industry, which account for more than 50% turnover of the industry and provides employment to an estimated 0.4 million people in the country. ## MARKET MAKER

### Details of the Market Making Arrangement for this Issue

Our Company and the Lead Manager have entered into a tripartite agreement dated April 04, 2018, with the following Market Maker, duly registered with the National Stock Exchange of India Limited to fulfill the obligations of Market Making:

<b>Name:</b>	KK Securities Limited
<b>Address:</b>	76-77, Scindia House, Janpath, New Delhi - 110001
<b>Tel No.:</b>	011-46890000
<b>Email:</b>	kksl@kksecurities.com
<b>Contact Person</b>	Mr. Sanjay Bansal
<b>SEBI Registration No:</b>	INZ000155732

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, 2009 and its amendments from time to time and the circulars issued by the BSE and SEBI regarding this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the stock exchange. Further, the Market Maker(s) shall inform the exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).
2. The minimum depth of the quote shall be Rs. 1,00,000. However, the investors with holdings of value less than Rs. 1,00,000 shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
3. The Maker shall not sell in lots less than the minimum contract size allowed for trading on the NSE EMERGE (in this case currently the minimum trading lot size is 2,000 equity shares; however the same may be changed but the NSE EMERGE from time to time).
4. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
5. After a period of three (3) months from the market making period, the Market Maker would be exempted to provide buy quote if the shares of Market Maker in the Company reaches to 25% of Issue Size (including the 5% Issue size ought to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Issue over and above 5% of Issue size would not be taken into consideration of computing the threshold of 25% of Issue Size. Apart from the above mandatory inventory, only those shares which have been acquired on the platform of the exchange during market making process shall be counted towards the Market Maker's threshold. As soon as the Equity Shares of the Market Maker in our Company reduce to 24% of Issue Size, Market Maker will resume providing 2-way quotes.
6. There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, NSE may intimate the same to SEBI after due verification.
7. There would not be more than five Market Makers for a scrip at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors. At this stage KKSL is acting as the sole market maker.
8. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market - for instance due to system problems, any other problems. All controllable reasons require prior approval from the Stock Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Stock Exchange for deciding controllable and non-controllable reasons would be final.
9. On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction.

10. The Market Maker may also be present in the opening call auction, but there is no obligation on him to do so.
11. Market Maker shall not buy the shares from the promoters or person belonging to promoter group of AVON or any person who has acquired shares from such promoter or person belonging to promoter group, during the compulsory Market Making Period.
12. The promoters holding of AVON shall not be eligible for offering to the Market Maker during the compulsory Market Making Period. However, the promoters' holding of AVON which is not locked-in as per the SEBI (ICDR) Regulations, 2009 can be traded with prior permission of the NSE EMERGE in the manner specified by SEBI from time to time.
13. The Lead Manager, if required, has the right to appoint a nominee director on the board of the Issuer Company any time during the compulsory market making period provided it meets the requirement under the SEBI (ICDR) Regulations, 2009.
14. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market - for instance due to system problems, any other problems. All controllable reasons require prior approval from the Stock Exchange, while force-majeure will be applicable for non controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
15. **Risk containment measures and monitoring for Market Makers:** NSE SME Exchange will have all margins which are applicable on the NSE Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE can impose any other margins as deemed necessary from time-to-time.
16. **Punitive Action in case of default by Market Makers:** Stock Exchange will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non- compliances. Penalties /fines may be imposed by the Stock Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Stock Exchange from time to time. The Stock Exchange will impose a penalty on the Market Maker in case he is not present in the market (Issuing two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.
17. The Department of Surveillance and Supervision of the Stock Exchange would decide and publish the penalties / fines / suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.
18. The price band shall be 20% and the market maker spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.
19. Pursuant to SEBI circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Market Makers during market making process has been made applicable, based on the Issue size and as follows:

#### World Economic Outlook

##### The Global Recovery Has Strengthened

The cyclical upswing underway since mid-2016 has continued to strengthen. Some 120 economies, accounting for three quarters of world GDP, have seen a pickup in growth in year-on-year terms in 2017, the broadest synchronized global growth upsurge since 2010. Among advanced economies, growth in the third quarter of 2017 was higher than projected in the fall, notably in Germany, Japan, Korea, and the United States. Key emerging market and developing economies, including Brazil, China, and South Africa, also posted third-quarter growth stronger than the fall forecasts. High-frequency hard data and sentiment indicators point to a continuation of strong momentum in the fourth quarter. World trade has grown strongly in recent months, supported by a pickup in investment, particularly among advanced economies, and increased manufacturing output in Asia in the run up to the launch of new smartphone models. Purchasing managers' indices indicate firm manufacturing activity ahead, consistent with strong consumer confidence pointing to healthy final demand.

*Commodities and inflation.* An improving global growth outlook, weather events in the United States, the extension of the OPEC+ agreement to limit oil production, and geopolitical tensions in the Middle East have supported crude oil prices. These have risen by about 20 percent between August 2017 (the reference period for the October 2017 WEO) and mid-December 2017 (the reference period for the January 2018 WEO Update), to over \$60 per barrel, with some further increase as of early January 2018. Markets expect prices to gradually decline over the next 4-5 years—as of mid-December, medium-term price futures stood at about \$54 per barrel, modestly higher than in August. The increase in fuel prices raised headline inflation in advanced economies, but wage and core-price inflation remain weak. Among emerging market economies, headline and core inflation have ticked up slightly in recent months after declining earlier in 2017.

*Bond and equity markets.* Market expectations of the path of U.S. Federal Reserve policy rates have shifted up since August, reflecting the well-anticipated December rate hike, but they continue to price in a gradual increase over 2018 and 2019. The Bank of England raised its policy rate for the first time since 2008 in view of diminishing slack in the economy and above-target inflation driven by the past sterling depreciation; the European Central Bank announced that it will taper its net asset purchases starting in January. The ECB intends, however, to maintain policy rates at current historically low levels until after quantitative easing ends and, should inflation underperform, extend the asset purchase program in amount and duration. Bond market reaction to these shifts has been muted, with yield curves tending to flatten as short-term rates have risen more than longer-term rates (e.g., in the United States, United Kingdom, and Canada), consistent with still-subdued market expectations of sustained upside surprises on inflation. Equity prices in advanced economies continued to rally, buoyed by generally favorable sentiment regarding earnings prospects, expectations of a very gradual normalization path for monetary policy in a weak inflation environment, and low expected volatility in underlying fundamentals. Emerging market equity indices have risen further since August, lifted by the improved near-term outlook for commodity exporters. In some cases, long-term yields have inched up in recent months, but they generally remain low, and interest rate spreads remain compressed.

*Exchange rates and capital flows.* As of early January 2018, the U.S. dollar and the euro remain close to their August 2017 level in real effective terms. The Japanese yen has depreciated by 5 percent on widening interest differentials, while the sterling has appreciated by close to 4 percent as the Bank of England raised interest

rates in November and as expectations of a Brexit deal rose. Across emerging market currencies, the renminbi has appreciated by around 2 percent, the Malaysian ringgit has rebounded by about 7 percent on an improved growth outlook and stronger commodity prices, and the South African rand by close to 6 percent on perceptions of reduced political uncertainty. In contrast, the Mexican peso has depreciated by 7 percent owing to renewed uncertainty associated with the ongoing NAFTA negotiations and the Turkish lira by 4.5 percent on higher inflation readings. Capital flows to emerging economies have remained resilient through the third quarter of 2017, with continued strength in non-resident portfolio inflows.

### Global Growth Forecast to Rise Further in 2018 and 2019

Global growth for 2017 is now estimated at 3.7 percent, 0.1 percentage point higher than projected in the fall. Upside growth surprises were particularly pronounced in Europe and Asia but broad based, with outturns for both the advanced and the emerging market and developing economy groups exceeding the fall forecasts by 0.1 percentage point.

The stronger momentum experienced in 2017 is expected to carry into 2018 and 2019, with global growth revised up to 3.9 percent for both years (0.2 percentage point higher relative to the fall forecasts).

For the two-year forecast horizon, the upward revisions to the global outlook result mainly from advanced economies, where growth is now expected to exceed 2 percent in 2018 and 2019. This forecast reflects the expectation that favorable global financial conditions and strong sentiment will help maintain the recent acceleration in demand, especially in investment, with a noticeable impact on growth in economies with large exports. In addition, the U.S. tax reform and associated fiscal stimulus are expected to temporarily raise U.S. growth, with favorable demand spillovers for U.S. trading partners—especially Canada and Mexico—during this period. The expected global macroeconomic effects account for around one-half of the cumulative upward revision to the global growth forecast for 2018 and 2019, with a range of uncertainty around this baseline projection.

- The growth forecast for the United States has been revised up given stronger than expected activity in 2017, higher projected external demand, and the expected macroeconomic impact of the tax reform, in particular the reduction in corporate tax rates and the temporary allowance for full expensing of investment. The forecast assumes that the decline in tax revenues will not be offset by spending cuts in the near term. The tax reform is therefore anticipated to stimulate near-term activity in the United States. As a by-product, stronger domestic demand is projected to increase imports and widen the current account deficit. Overall, the policy changes are projected to add to growth through 2020, so that U.S. real GDP is 1.2 percent higher by 2020 than in a projection without the tax policy changes. The U.S. growth forecast has been raised from 2.3 percent to 2.7 percent in 2018, and from 1.9 percent to 2.5 percent in 2019. In light of the increased fiscal deficit, which will require fiscal adjustment down the road, and the temporary nature of some provisions, growth is expected to be lower than in previous forecasts for a few years from 2022 onward, offsetting some of the earlier growth gains. The inflation response to higher domestic demand is expected to be muted given the low sensitivity of core price pressures to changes in slack in recent years and a somewhat faster projected pace of U.S. Federal Reserve policy rate hikes than in the fall, with a modest decompression of term premiums and no sizable U.S. dollar appreciation. According to the U.S. Congressional Joint Committee on Taxation, the tax code overhaul is projected to reduce the average tax rate on upper income U.S. households relative to those in the middle and lower segments, especially over the medium term (when some provisions benefiting lower- and middle-income taxpayers expire).
- Growth rates for many of the euro area economies have been marked up, especially for Germany, Italy, and the Netherlands, reflecting the stronger momentum in domestic demand and higher external demand. Growth in Spain, which has been well above potential, has been marked down slightly for 2018, reflecting the effects of increased political uncertainty on confidence and demand.
- The growth forecast for 2018 and 2019 has also been revised up for other advanced economies, reflecting in particular stronger growth in advanced Asian economies, which are especially sensitive to the outlook for global trade and investment. The growth forecast for Japan has been revised up for 2018 and 2019, reflecting upward revisions to external demand, the supplementary budget for 2018, and carryover from stronger-than-expected recent activity.

The aggregate growth forecast for the emerging markets and developing economies for 2018 and 2019 is unchanged, with marked differences in the outlook across regions.

- Emerging and developing Asia will grow at around 6.5 percent over 2018-19, broadly the same pace as in 2017. The region continues to account for over half of world growth. Growth is expected to moderate gradually in China (though with a slight upward revision to the forecast for 2018 and 2019 relative to the

fall forecasts, reflecting stronger external demand), pick up in India, and remain broadly stable in the ASEAN-5 region.

- In emerging and developing Europe, where growth in 2017 is now estimated to have exceeded 5 percent, activity in 2018 and 2019 is projected to remain stronger than previously anticipated, lifted by a higher growth forecast for Poland and especially Turkey. These revisions reflect a favorable external environment, with easy financial conditions and stronger export demand from the euro area, and, for Turkey, an accommodative policy stance.
- In Latin America, the recovery is expected to strengthen, with growth of 1.9 percent in 2018 (as projected in the fall) and 2.6 percent in 2019 (a 0.2 percentage point upward revision). This change primarily reflects an improved outlook for Mexico, benefiting from stronger U.S. demand, a firmer recovery in Brazil, and favorable effects of stronger commodity prices and easier financing conditions on some commodity-exporting countries. These upward revisions more than offset further downward revisions for Venezuela.
- Growth in the Middle East, North Africa, Afghanistan, and Pakistan region is also expected to pick up in 2018 and 2019, but remains subdued at around 3½ percent. While stronger oil prices are helping a recovery in domestic demand in oil exporters, including Saudi Arabia, the fiscal adjustment that is still needed is projected to weigh on growth prospects.
- The growth pickup in Sub-Saharan Africa (from 2.7 percent in 2017 to 3.3 percent in 2018 and 3.5 percent in 2019) is broadly as anticipated in the fall, with a modest upgrade to the growth forecast for Nigeria but more subdued growth prospects in South Africa, where growth is now expected to remain below 1 percent in 2018-19, as increased political uncertainty weighs on confidence and investment.
- Growth this year and next is projected to remain above 2 percent in the Commonwealth of Independent States, supported by a slight upward revision to growth prospects for Russia in 2018.

## Overview of the Economy

The year 2017-18 was marked with strong macro-economic fundamentals. However, the growth of gross domestic product (GDP) moderated in 2017-18 vis-à-vis 2016-17. There was an improvement in export growth, fiscal trends remained attuned to the consolidation plans and inflation remained within the limits. The year also witnessed an increase in global confidence in Indian economy as well as improvement in ease of doing business ranking.

Various economic reforms were undertaken in the year which include: implementation of the Goods and Service Tax, announcement of bank recapitalization, push to infrastructure development by giving infrastructure status to affordable housing, higher allocation of funds for highway construction and greater focus on coastal connectivity. Further initiatives include: lower income tax for companies with annual turnover up to 50 crore; allowing carry-forward of MAT credit up to a period of 15 years instead of 10 years at present; further measures to improve the ease of doing business; and, major push to digital economy.

Other sectoral initiatives undertaken include: measures to revive the construction sector and promotion of exports in textile and apparel industry. Apart from these, the measures that were taken by the Government in the previous years to boost manufacturing, employment generation, improving ease of doing business and transparency via schemes such as Make-in-India, Skill India, direct benefit transfer and measures for financial inclusion were also taken forward in 2017-18.

An important macro-economic challenge faced by the Indian economy relates to the declining trend in the investment and saving rates, as seen from the latest available data. Nonetheless, medium-term macro outlook remains bright against the background of implementation of GST, green shoots in the global economy, relatively stable prices and improvement in indicators of external sector.

## GDP growth

As per the 1st Advanced Estimates released by the Central Statistics Office (CSO), the economy is expected to grow by 6.5 per cent in 2017-18 in terms of GDP at constant (2011-12) market prices. The gross value added (GVA) at constant (2011-12) basic prices is expected to grow by 6.1 per cent in 2017-18, as compared to the growth of 7.1 per cent achieved in 2016-17. The growth in agriculture, industry and services is estimated at 2.1 per cent, 4.4 per cent and 8.3 per cent respectively in 2017-18, as compared to 4.9 per cent, 5.6 per cent and

7.7 per cent in 2016-17. Growth rate of industry sector declined in 2017-18, mainly on account of moderate growth in manufacturing sector. It was the services sector that contributed to more than half of the overall GVA growth rate of 6.1 per cent in 2017-18. From the demand side, the final consumption expenditure has been the major driver of GDP growth. The growth of fixed investment at constant prices increased from 2.4 per cent in 2016-17 to 4.5 per cent in 2017-18. As per CSO, the exports of goods and services are estimated to grow by 4.5 per cent in real terms in 2017-18 as was the case in 2016-17, whereas the imports are estimated to grow by 10.0 per cent in 2017-18 as against 2.3 per cent in 2016-17.

### GDP GROWTH IN 2017-18

With Gross Domestic Product (GDP) growth averaging 7.5 per cent between 2014-15 and 2016-17, India can be rated as among the best performing economies in the world on this parameter. Although growth is expected to decline to 6.5 per cent in 2017-18, bringing the 4-year average to 7.3 per cent, the broad story of India's GDP growth to be significantly higher than most economies of the world does not alter. The growth is around 4 percentage points higher than global growth average of last 3 years and nearly 3 percentage points more than the average growth achieved by emerging market & developing economies (EMDE) (Figure 1).

**Figure 1 : Average growth of GDP during 2014-17 (per cent)**

*Source: Based on IMF's World Economic Outlook Database (October 2017)*

As per the first Advance Estimates (1st AE), released by Central Statistics Office (CSO), growth rate of Gross Value of Added (GVA) at constant basic prices is estimated at 6.1 per cent in 2017-18, as compared to 6.6 per cent in 2016-17. This is on account of lower growth in 'Agriculture & allied', and 'Industry' sector, which are expected to grow at 2.1 per cent and 4.4 per cent respectively. In 2017-18, service sector is expected to grow at 8.3 per cent, as compared to 7.7 per cent in 2016-17. Within the services sector, only the growth of 'Public administration, defence & other services' sector is expected to decline in 2017-18 (Table 1).

Table 1 : Annual real GVA and GDP growth (per cent)

GVA at basic prices from:	2014-15	2015-16	2016-17	2017-18 (1st AE)
Agriculture, forestry & fishing	-0.2	0.7	4.9	2.1
Industry	7.5	8.8	5.6	4.4
Mining & quarrying	11.7	10.5	1.8	2.9
Manufacturing	8.3	10.8	7.9	4.6
Electricity, gas, water supply & other utility services	7.1	5.0	7.2	7.5
Construction	4.7	5.0	1.7	3.6
Services	9.7	9.7	7.7	8.3
Trade, Hotel, Transport, Storage, communication & services related to broadcasting	9.0	10.5	7.8	8.7
Financial, real estate & professional services	11.1	10.8	5.7	7.3
Public administration, defence & other services	8.1	6.9	11.3	9.4
GVA at basic prices	7.2	7.9	6.6	6.1
GDP at market prices	7.5	8.0	7.1	6.5

Source: Based on data from CSO

From a low of 5.5 per cent in 2012-13, growth in GDP steadily improved for 3 years and peaked in 2015-16, particularly in fourth quarter (Q4) when it printed 9.1 per cent (GVA growth also peaked in Q4 of 2015-16). However, growth started slowing down from first quarter (Q1) of 2016-17. GDP and GVA growth slowed to 6.1 per cent and 5.6 per cent respectively in Q4 of 2016-17. GDP growth further declined to 5.7 per cent in Q1 of 2017-18. However, the second quarter (Q2) of 2017-18 witnessed reversal of declining trend of GDP growth, with growth increasing to 6.3 per cent. The nominal GDP and GVA growth also picked up to 9.4 per cent and 8.6 per cent respectively in Q2 of 2017-18 (Figure 2).

Figure 2 : Quarterly growth in GDP and GVA (per cent)

Source: Central Statistics Office (CSO)

As per the 1st AE, the real GDP growth is expected to be 6.5 per cent in 2017-18, while the real GVA at basic prices is expected to register a growth of 6.1 per cent. With GDP and GVA growth of 6.0 per cent and 5.8 per cent respectively in the first half (H1) of the current financial year, the implicit growth for the second half (H2) of the year works out to be 7.0 per cent and 6.4 per cent respectively, indicating further recovery of the economy that began in the Q2 of 2017-18. Major macro indicators viz. gross fixed investment and exports are also expected to grow at a faster pace in H2 vis-à-vis H1 of 2017-18.

In the recent years, the wedge between the real and nominal GDP growth has narrowed significantly. While real GDP growth averaged 6.4 per cent between 2012-13 and 2014-15, the nominal growth was 12.5 per cent in this period. In comparison, during the three-year period from 2015-16 to 2017-18, the real and nominal GDP average growth is estimated to be 7.2 per cent and 10.1 per cent respectively, pointing to higher differences in the former period than latter. This is not surprising given that the fact that inflation in the earlier period (particularly in 2012-13 and 2013-14) was significantly higher than the latter.

The growth in nominal GDP in 2016-17 is estimated to be 11 per cent and it is expected at 9.5 per cent in 2017-

18 on account of both lower real growth as well as lower value of deflator in 2017-18. The growth of nominal GVA in these two years is estimated to the 9.7 per cent and 9.0 per cent respectively. The differences in the nominal growth between GVA and GDP have also increased in the last few years. This is indicative of an increase in the share of net indirect taxes in GDP.

## GLOBAL PLASTIC MARKET

### Global plastics market to register CAGR of 7.03% from 2017 to 2025

Global plastics market is projected to grow at a CAGR of 7.03% from 2017 to 2025, as per Orian Research. Plastics are used in a variety of industries: construction, packaging, appliance, automobile, textile, transportation, and many others. A large number of manufacturers supply many different products to numerous end-users for a multitude of applications. The major drivers for plastics market would be its low cost, flexibility of use, easy manufacturing capabilities, growing construction in Asia-Pacific region among others. Thus, plastics can be regarded as synthetic or semi-synthetic organic solids which can be transformed into several useful products. Also, the paradigm shift of technology to recycle plastics for end-use applications provide significant opportunities to the entire supply chain of the plastics market.

Polyethylene is derived from polymerization of ethylene and has the properties like chemical & thermal resistivity, flexibility, electrical & thermal insulation among others. Due to its light weight and easy manufacturing capability, polyethylene has found applications in various industries such as construction, electronics, and automotive. The polyethylene market is projected to grow at a considerable CAGR in the emerging economies. Also, the demand from different domains such as injection moulding, food & beverages and packaging has fuelled the demand. On the other hand, Polyethylene terephthalate (PET) is projected to grow at a significant CAGR during the forecast period (2017-2025).

Asia Pacific plastics market is projected to account for a share of around 45% of the global plastics market by 2025. The growing automotive and construction sectors in countries such as India and China with the adoption of rapid technological advancement has significantly boosted Asia-Pacific's plastics market. Presence of major automotive industries in Germany and France should drive European plastics market along with the growing demand for high performance and environmental friendly plastics materials such as bio-based plastics and engineering thermoplastics. Also, the Central & South American region is projected to grow at a considerable CAGR during the forecast period.

## INDIAN PLASTIC INDUSTRY

Size of the Industry	Today in India there are about 22000 plastic processing units and 150 plastic processing machinery manufactures.
Percentage In World Market	In the year 2006, the value of world plastic export was US\$ 375 billion and the share of India was less than 1% with exports of worth US\$ 3.187
Market capitalization	The per capita consumption of plastic products in India is growing and is moving towards 8% GDP growth.

### History

Ever since 1957, the Plastics Industry in India has made significant achievements as it made a modest but promising beginning by commencing production of Polystyrene. The chronology of manufacture of Indian polymers is summarised as under:- 1957-Polystyrene , 1959-LDPE , 1961-PVC , 1968- HDPE , 1978-Polypropylene.

Such potential Indian market has motivated the entrepreneurs in the country to acquire technical expertise, achieve high quality standards and build capacities in various facets of the booming plastic industry. The Phenomenal developments in the plastic machinery sector is coupled with the developments in the petrochemical sector, both of which support the plastic processing sector. This has facilitated the plastic processors to build capacities for the service of both the domestic market and the markets overseas. Today Indian Plastic processing sector comprises of over 30,000 units involved in producing a variety of items through injection moulding, blow moulding, extrusion and calendaring. The capacities built in most segments of this industry coupled with inherent capabilities has made us capable of servicing the overseas markets. The Indian plastic industry has taken great strides and in the past few decades, the industry has grown to the status of a leading sector in the country with a sizable base.

Plastic material is gaining notable importance in different spheres of activity and the per capita consumption is increasing at a fast pace. Continuous advancements and developments in Plastic technology, processing machineries, expertise, and cost effective manufacturing is fast replacing the typical materials. On the basis of value added share, the Indian Plastic industry is about 0.5% of India's GDP. The export of plastic products also yields about 1% of the country's exports. The sector has a large presence of small scale companies in the industry, which account for more than 50% turnover of the industry and provides employment to an estimated 0.4 million people in the country. Approximately Rs.100 billion are invested in the form of fixed assets in the plastic processing industry.

**Brief Introduction**

The Indian Plastic industry is facing severe demand crunch in the domestic industry for quite some time. Demand for major polymers was 10% lower in Q2 this financial year as compared to the same period last year. The slowdown demand is adversely affecting the industry comprising of 15 raw material producers and there are about 26,000 processing units in the country with adverse impact on the employment of 3.3 million people associated with this industry. The contribution of the plastic industry in the economic growth of countries the world has been great.

With a population over one billion where 40% are under age 15, opportunities for plastics producers in India include near-term rapid growth in the nation's internal consumption of plastic products and the Indian middle class is 300 million and rising, and the annual GDP growth rate is 8%.

**Market capitalization**

Typically, in an emerging market, demand growth for plastics is 2 to 2.5 times the GDP growth. Sadly this is not the case in India where the growth at times has been lower than the GDP growth. The per capita consumption of plastics in India at 5kg is much lower than that of China which averages 25kg. But India could see very soon improvement in the production of Plastic. India today represents range of highly promising opportunities for growth of plastics producers worldwide. The fragmented plastics industry in India is beginning to consolidate, governmental regulations and trade barriers are coming down due to India's recent admission to the WTO, and some large North American plastics manufacturers have already begun doing business here.

**Size of the industry**

Today in India there are about 22000 plastic processing units and 150 plastic processing machinery manufactures. The machinery units supply over 2500 machineries per annum. In 198, the All India Plastic Industries Association was incorporated to solve various issue related to import duty of polymers.

**Role of Plastic Industry in the Indian Economy**

	2005	2015
@ 15% CARG, Consumption of Plastic Polymers	4.7 Million Tonnes	18.9 Million Tonnes
Employment In Plastic Industry (Direct+ Indirect)	2.5 Million	9.5 Millions

Plastic Industry's Turnover	Rs. 35,000 Crores	Rs. 1,33,245 Crores
Export of Plastic Products @ 30% CARG	US\$ 1900 Millions	US \$ 10215 Millions
Contribution of Polymers and Plastic Products to the Exchequer	Rs. 6200 Crores	Rs. 15990 Crores

### Domestic and Export Share

In the year 2006, the value of world plastic export was US\$ 375 billion and the share of India was less than 1 % with exports of worth US\$ 3.187 billion. During this same period the percentage of growth in export was 21%. During this trend of growth in exports, the exports of plastic raw material increased from 55% to 60% of the total export of plastic goods, while the export of processed plastic goods was a negative growth from 45% to 9%. According to recent reports of analysts, the industry is said to be losing an opportunity of USD 300 million through value addition on the raw materials that are exported. Indian Plastic Industry today is symbolizing a promising industry and at the same time creating new employment opportunities for people in the country. The per capita consumption of plastic products in India is growing and is moving towards 8% GDP growth.

### Top leading Companies

Finolex Industries Ltd. It can produce 90,000 metric tons of pipes each year. Plastiblends India Limited is renowned as India's pioneer Masterbatches manufacturer.

The most prominent plastic companies in India is the AGA Group International, established in 2004 in Ambala City, Haryana Corporate Resource Group is one of the leading suppliers, exporters and manufacturers of plastic instruments and pipettes in India.

ACRY Plus company exports, manufactures and supplies acrylic plastics sheets, polycarbonate sheets, polycarbonate multi-wall sheets and PVC foam sheets.

Kay Kay Global Suppliers was founded in 1993 at Ambala Cantt Employment Opportunities Students who are interested to pursue the career in area of Plastic Technology must have completed 10+2 with physics, chemistry and mathematics. A good Plastic Technologist can specialize at the graduate level through a BE course in Chemical/Polymer engineering or a B.Sc. course in Chemistry followed by B.Tech./Diploma in Plastic/Polymer Technology. Graduation in Chemical/Polymer engineering with Chemistry are eligible for postgraduate courses in Plastic/Polymers technology. One has to pass GATE for getting admission into the postgraduate course. Apart from these opportunities production, management and marketing are other functional areas and entry in these areas should not necessarily demand a background in Plastic Technology. Jobs in Plastic industry community is created where knowledge is shared among the community on latest development in plastic industry.

### Latest developments

The Indian Plastic industry is at the verge of high growth rate over about 10%-12% which is contributed by high growth rates, in turn, from the end-user industries. This trend has mainly been driving the automotive sector, since the economy is already showing signs of recovery from the downturn.

As the Plastic industry is heavily dependent on automotive sector, launching of new cars in the small segments are expected to drive the demand for plastics.

India is likely to dominate the rest of the world's Plastic with the domestic per capita consumption set to double by 2012.

As the domestic Indian Plastic Industry expects for the investment of nearly \$80 billion over the next four years. Indian government has identified the petrochemicals industry as a 'high priority' sector, as it is owing to the fact that plastics play an important role in providing the basic necessities for everyday use, while it is conserving the scarce natural resources.

Plastic plays a significant role in the key sectors of the economy, including agriculture, water management, automobiles, transportation, construction, telecommunication and electronics, besides defence and aerospace, computers and power transmissions.

As of now the Indian Plastic industry has enormous potential for growth as polymer use in India is far below the world level. With increasing competition in the global market and the constant drive to improve our living standards, the scope for use of plastics is bound to increase manifold and make the production double in the coming years.

### Manufacturing Process

In brief the manufacturing process followed by us is as under:

The basic material used in the manufacturing of plastic molded furniture is Polypropylene, co-polymer, master batch, furniture compound. The raw material procured in granule form is sourced from national and international manufacturers such as Reliance industries along with master batch, furniture compound. The raw materials are mixed together in a mixer and rotated at a high speed so that all the materials mix properly, thereafter the said mixture is heated to a level of approximately 100 degree Celsius. The treated material is thereafter transported via trolleys for injecting in the molding machine hopper and are fed into the hopper. Based on the cycle speed of a particular product (the cycle speeds vary from product to product), the treated material is melted at temperature exceeding 200 degree Celsius. Post melting of the material, it is injected in to molds of different variety of furniture and then it is simultaneously cooled and the completed product is dropped from the mould once the process is completed. Thereafter finishing touches like cleaning of the product, labelling, packing and dispatch is carried out manually.

It may be noted that plastic injection molding process for manufacture furniture is categorized under green category of industry as there is no noise, air or water pollution due to the high tech engineering process, which is fully automated. The process does not generates any waste for disposal and any flashes or deformity of the product is again grinded, recycled in the same machine. Accordingly, the process does not generate any waste. Further, the process does not require any water, except for cooling, which is recycled in cooling tower owing to which no water or effluent is not discharged into drains. The entire process is environment friendly and the industry we operate in is accepted as priority in any pollution free zones for manufacturing and distributing. No restriction of any kind is imposed across India or globally in any country for this plastic injection molding process.

### **E. OTHER LEGISLATIONS**

#### **Transfer of Property Act, 1882**

The transfer of property, including immovable property, between living persons, as opposed to the transfer property by operation of law, is governed by the Transfer of Property Act, 1882 (“T.P. Act.”). The T.P. Act establishes the general principles relating to the transfer of property, including among other things, identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingent and vested interest in the property. Transfer of property is subject to stamping and registration under the specific statutes enacted for the purposes which have been dealt with hereinafter.

The T.P. Act recognizes, among others, the following forms in which an interest in an immovable property may be transferred:

- Sale: The transfer of ownership in property for a price, paid or promised to be paid.
- Mortgage: The transfer of an interest in property for the purpose of securing the payment of a loan, existing or future debt, or performance of an engagement which gives rise to a pecuniary liability. The T.P. Act recognises several forms of mortgages over a property.
- Charges: Transactions including the creation of security over property for payment of money to another which are not classifiable as a mortgage. Charges can be created either by operation of law, e.g. decree of the court attaching to specified immovable property, or by an act of the parties.
- Leases: The transfer of a right to enjoy property for consideration paid or rendered periodically or on specified occasions.

- Leave and License: The transfer of a right to do something upon immovable property without creating interest in the property.

Further, it may be noted that with regards to the transfer of any interest in a property, the transferor transfers such interest, including any incidents, in the property which he is capable of passing and under the law, he cannot transfer a better title than he himself possesses.

### **The Registration Act, 1908**

The main purpose for which the Act was designed was to ensure information about all deals concerning land so that correct land records could be maintained. The Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose.

### **The Indian Stamp Act, 1899**

Stamp duty in relation to certain specified categories of instruments as specified under Entry 91 of the list, is governed by the provisions of the Indian Stamp Act, 1899 (“Stamp Act”) which is enacted by the Central Government. All others instruments are required to be stamped, as per the rates prescribed by the respective State Governments. Stamp duty is required to be paid on all the documents that are registered and as stated above the percentage of stamp duty payable varies from one state to another. Certain states in India have enacted their own legislation in relation to stamp duty while the other states have adopted and amended the Stamp Act, as per the rates applicable in the state. On such instruments stamp duty is payable at the rates specified in Schedule I of the Stamp Act.

Instruments chargeable to duty under the Stamp Act which are not duly stamped are incapable of being admitted in court as evidence of the transaction contained therein. The Stamp Act also provides for impounding of instruments which are not sufficiently stamped or not stamped at all. Unstamped and deficiently stamped instruments can be impounded by the authority and validated by payment of penalty. The amount of penalty payable on such instruments may vary from state to state.

**c. Fixed Assets (Tangible / Intangible) & Capital Work-In-Progress**

Tangible Fixed Assets are stated at cost less depreciation / amortisation and impairment losses, if any. The cost of Fixed Assets comprises its purchase price net of any taxes, duties, freight and other incidental expenses related to acquisition, improvements and installation of the assets.

Borrowing costs that are directly attributable to the acquisition / construction of the qualifying asset are capitalised as part of the cost of such asset, up to the date of acquisition / completion of construction.

Projects under which Tangible Fixed Assets are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

Gains or Losses arising from derecognition of Fixed Assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and recognized in the statement of profit and loss when the asset is derecognized.

Intangible Assets acquired separately are measured on initial recognition at cost. Following the initial recognition, Intangible Assets are carried at cost less accumulated amortization and accumulated impairment, if any. Gains or losses arising from derecognition of an Intangible Asset are measured as the difference between the net disposal proceeds and the carrying amount of the Asset and are recognized in the statement of profit and loss when the asset is derecognized.

**d. Depreciation and Amortization**

Depreciation on tangible assets is provided on “Written down Value Method” over the useful lives specified in Schedule II of Companies Act, 2013.

In respect of additions to /deletions from the Fixed Assets, on prorata basis with reference to the date of addition/deletion of the assets.

Intangible assets are to be amortized on straight line basis over a period of five years.

**e. Impairment of tangible and intangible assets**

The carrying amount of Assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal/external factors or an annual impairment testing for an asset is required. An Impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount.

The recoverable amount is the greater of the asset’s net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

**f. Valuation of Inventories**

Finished goods and stock in process are valued at lower of cost or net realizable value. Cost includes cost of conversion and other expenses incurred in bringing the goods to their location and condition. Raw material, packing material, stores spares and consumables are valued at cost on First in-First out (FIFO) basis.

**g. Investments**

**Recognition and Measurement**

Long-term investments are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments includes acquisition charges such as brokerage, fees and duties.

On disposal of investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss.

**Presentation and disclosures**

Investments that are readily realisable and are intended to be held for not more than one year from the date, on which such investments are made, are classified as current investments. All other investments are classified as Non Current investments.

**h. Revenue Recognition**

**Income from sale of goods**

Revenue from sales is recognised when significant risks and rewards of ownership have been transferred to the buyer which is normally on delivery of goods (inclusive of excise duty/GST) & when there is reasonable certainty and reliability of ultimate realisation.

**Interest**

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head “other income” in the statement of profit and loss.

**Dividend**

Dividends are recorded when the right to receive payment is established.

**i. Foreign Currency Transactions**

On initial recognition, all foreign currency transactions are converted and recorded at exchange rates prevailing on the date of the transaction.

As at the reporting date, foreign currency monetary assets and liabilities are translated at the exchange rate prevailing on the Balance Sheet date and the exchange gains or losses are recognised in the Statement of Profit and Loss.

Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

**j. Borrowing Cost**

Borrowing costs that are directly attributable to the acquisition of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is put to use. Other borrowing costs are recognised as an expense in the period in which they are incurred.

**k. Earnings Per Share (EPS)**

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all diluting potential equity shares.

**l. Employee Benefits**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees’ service up to the end of the year and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligation in the balance sheet.

**Post-Employment Benefits**

**Defined Contribution Plan:** The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the

contribution are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

**Defined Benefit Plan:** For defined benefit plan in the form of gratuity, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each balance sheet date. Actuarial gains and losses are recognised in the Statement of Profit and Loss in the period in which they occur.

#### **Long Term Employee Benefits**

Entitlements to earned leave are recognized when they accrue to the employees. An employee who has a right to accumulate and carry forward his leave to a future period can either avail these leaves in future or encash, as per the company's leave encashment policy.

#### **m. Taxes on Income**

Tax expense comprises both current and deferred taxes. Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable tax laws.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Minimum Alternate Tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

#### **n. Provisions and Contingent Liabilities**

##### **a. Provisions**

A Provision is recognized, if as a result of past event the company has a present obligation that is reasonably estimable and it is probable that an outflow of economic benefits will be required to settle the Obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

##### **b. Contingent Liabilities**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company has provided requisite disclosure related to contingent liabilities in its restated financial statements.

#### **o. Cash and Cash Equivalents**

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand, INR Value of Foreign Currency in hand, fixed deposits with banks, which are short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

## 5.6 BASIS OF ALLOCATION

- a) The SEBI ICDR Regulations, 2009 specify the allocation or Allotment that may be made to various categories of Applicants in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the Prospectus. For details in relation to allocation, the Applicant may refer to the Prospectus.
- b) Under-subscription in any category (except QIB Category) is allowed to be met with spillover from any other category or combination of categories at the discretion of the Issuer and in consultation with the BRLMs and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations, 2009. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- c) In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an under-subscription applicable to the Issuer, Applicants may refer to the Prospectus.
- d) Illustration of the Book Building and Price Discovery Process Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of Rs. 20 to Rs. 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (M)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., Rs. 22.00 in the above example. The Issuer in consultation with the BRLMs, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below Rs. 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

### e) Alternate Method of Book Building

In case of FPOs, Issuers may opt for an alternate method of Book Building in which only the Floor Price is specified for the purposes of bidding (“Alternate Book Building Process”).

The Issuer may specify the Floor Price in the Prospectus or advertise the Floor Price at least one Working Day prior to the Bid/ Issue Opening Date. QIBs may Bid at a price higher than the Floor Price and the Allotment to the QIBs is made on a price priority basis. The Bidder with the highest Bid Amount is allotted

the number of Equity Shares Bid for and then the second highest Bidder is Allotted Equity Shares and this process continues until all the Equity Shares have been allotted. RIIs, NIIs and Employees are Allotted Equity Shares at the Floor Price and Allotment to these categories of Bidders is made proportionately. If the number of Equity Shares Bid for at a price is more than available quantity then the Allotment may be done on a proportionate basis. Further, the Issuer may place a cap either in terms of number of specified securities or percentage of issued capital of the Issuer that may be Allotted to a single Bidder, decide whether a Bidder be allowed to revise the bid upwards or downwards in terms of price and/or quantity and also decide whether a Bidder be allowed single or multiple bids.

## **SECTION 6: ISSUE PROCEDURE IN FIXED PRICE ISSUE**

**Applicants may note that there is no Bid cum Application Form in a Fixed Price Issue.** As the Issue Price is mentioned in the Fixed Price Issue therefore on filing of the Prospectus with the RoC, the Application so submitted is considered as the Application Form.

Applicants may only use the specified Application Form for the purpose of making an Application in terms of the Prospectus which may be submitted through the Designated Intermediary.

Applicants may submit an Application Form either in physical form to the any of the Designated Intermediaries or in the electronic form to the SCSB or the Designated Branches of the SCSBs authorising blocking of funds that are available in the bank account specified in the Application Form only (“ASBA Account”). The Application Form is also made available on the websites of the Stock Exchanges at least one day prior to the Bid/Issue Opening Date.

In a fixed price Issue, allocation in the net issue to the public category is made as follows: minimum fifty per cent to Retail Individual Investors; and remaining to (i) individual investors other than Retail Individual Investors; and (ii) other Applicants including corporate bodies or institutions, irrespective of the number of specified securities applied for. The unsubscribed portion in either of the categories specified above may be allocated to the Applicants in the other category.

For details of instructions in relation to the Application Form, Applicants may refer to the relevant section of the GID.

## **SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT**

The Allotment of Equity Shares to Applicants other than Retail Individual Investors and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Applicants may refer to Prospectus. The Issuer is required to receive a minimum subscription of 90% of the Issue (excluding any Offer for Sale of specified securities). However, in case the Issue is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

### **7.1 ALLOTMENT TO RIIs**

Bids received from the RIIs at or above the Issue Price may be grouped together to determine the total demand under this category. If the aggregate demand in this category is less than or equal to the Retail Category at or above the Issue Price, full Allotment may be made to the RIIs to the extent of the valid Bids. If the aggregate demand in this category is greater than the allocation to in the Retail Category at or above the Issue Price, then the maximum number of RIIs who can be Allotted the minimum Bid Lot will be computed by dividing the total number of Equity Shares available for Allotment to RIIs by the minimum Bid Lot (“**Maximum RII Allottees**”). The Allotment to the RIIs will then be made in the following manner:

- a) In the event the number of RIIs who have submitted valid Bids in the Issue is equal to or less than Maximum RII Allottees, (i) all such RIIs shall be Allotted the minimum Bid Lot; and (ii) the balance available Equity Shares, if any, remaining in the Retail Category shall be Allotted on a proportionate basis to the RIIs who have received Allotment as per (i) above for the balance demand of the Equity Shares Bid by them (i.e. who have Bid for more than the minimum Bid Lot).
- b) In the event the number of RIIs who have submitted valid Bids in the Issue is more than Maximum RII Allottees, the RIIs (in that category) who will then be Allotted minimum Bid Lot shall be determined on the basis of draw of lots.

## 7.2 ALLOTMENT TO NIIs

Bids received from NIIs at or above the Issue Price may be grouped together to determine the total demand under this category. The Allotment to all successful NIIs may be made at or above the Issue Price. If the aggregate demand in this category is less than or equal to the Non-Institutional Category at or above the Issue Price, full Allotment may be made to NIIs to the extent of their demand. In case the aggregate demand in this category is greater than the Non-Institutional Category at or above the Issue Price, Allotment may be made on a proportionate basis up to a minimum of the Non- Institutional Category.

## 7.3 ALLOTMENT TO QIBs

For the Basis of Allotment to Anchor Investors, Applicants may refer to the SEBI ICDR Regulations, 2009 or Prospectus. Bids received from QIBs Bidding in the QIB Category (net of Anchor Portion) at or above the Issue Price may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Issue Price. Allotment may be undertaken in the following manner:

- a) In the first instance allocation to Mutual Funds for up to 5% of the QIB Category may be determined as follows: (i) In the event that Bids by Mutual Fund exceeds 5% of the QIB Category, allocation to Mutual Funds may be done on a proportionate basis for up to 5% of the QIB Category; (ii) In the event that the aggregate demand from Mutual Funds is less than 5% of the QIB Category then all Mutual Funds may get full Allotment to the extent of valid Bids received above the Issue Price; and (iii) Equity Shares remaining unsubscribed, if any and not allocated to Mutual Funds may be available for Allotment to all QIBs as set out at paragraph 7.4(b) below;
- b) In the second instance, Allotment to all QIBs may be determined as follows: (i) In the event of oversubscription in the QIB Category, all QIBs who have submitted Bids above the Issue Price may be Allotted Equity Shares on a proportionate basis for up to 95% of the QIB Category; (ii) Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis along with other QIBs; and (iii) Under-subscription below 5% of the QIB Category, if any, from Mutual Funds, may be included for allocation to the remaining QIBs on a proportionate basis.

## 7.4 ALLOTMENT TO ANCHOR INVESTOR (IF APPLICABLE)

- a) Allocation of Equity Shares to Anchor Investors at the Anchor Investor Issue Price will be at the discretion of the issuer in consultation with the Investor and the BRLMs, subject to compliance with the following requirements:

Based on the physical book and at the discretion of the issuer in consultation with the BRLMs, selected Anchor Investors will be sent a CAN and if required, a revised CAN.
- c) **In the event that the Issue Price is higher than the Anchor Investor Issue Price:** Anchor Investors will be sent a revised CAN within one day of the Pricing Date indicating the number of Equity Shares allocated to such Anchor Investor and the pay-in date for payment of the balance amount. Anchor Investors are then

required to pay any additional amounts, being the difference between the Issue Price and the Anchor Investor Issue Price, as indicated in the revised CAN within the pay-in date referred to in the revised CAN. Thereafter, the Allotment Advice will be issued to such Anchor Investors.

- d) **In the event the Issue Price is lower than the Anchor Investor Issue Price:** Anchor Investors who have been Allotted Equity Shares will directly receive Allotment Advice.

#### **7.5 BASIS OF ALLOTMENT FOR QIBs (OTHER THAN ANCHOR INVESTORS), NIIs AND RESERVED CATEGORY IN CASE OF OVER-SUBSCRIBED ISSUE**

In the event of the Issue being over-subscribed, the Issuer may finalise the Basis of Allotment in consultation with the Designated Stock Exchange in accordance with the SEBI ICDR Regulations, 2009.

The allocation may be made in marketable lots, on a proportionate basis as explained below:

- a) Bidders may be categorized according to the number of Equity Shares applied for;
- b) The total number of Equity Shares to be Allotted to each category as a whole may be arrived at on a proportionate basis, which is the total number of Equity Shares applied for in that category (number of Bidders in the category multiplied by the number of Equity Shares applied for) multiplied by the inverse of the over-subscription ratio;
- c) The number of Equity Shares to be Allotted to the successful Bidders may be arrived at on a proportionate basis, which is total number of Equity Shares applied for by each Bidder in that category multiplied by the inverse of the over-subscription ratio;
- d) In all Bids where the proportionate Allotment is less than the minimum Bid Lot decided per Bidder, the Allotment may be made as follows: the successful Bidders out of the total Bidders for a category may be determined by a draw of lots in a manner such that the total number of Equity Shares Allotted in that category is equal to the number of Equity Shares calculated in accordance with (b) above; and each successful Bidder may be Allotted a minimum of such Equity Shares equal to the minimum Bid Lot finalised by the Issuer;
- e) If the proportionate Allotment to a Bidder is a number that is more than the minimum Bid lot but is not a multiple of one (which is the marketable lot), the decimal may be rounded off to the higher whole number if that decimal is 0.5 or higher. If that number is lower than 0.5 it may be rounded off to the lower whole number. Allotment to all Bidders in such categories may be arrived at after such rounding off; and
- f) If the Equity Shares allocated on a proportionate basis to any category are more than the Equity Shares Allotted to the Bidders in that category, the remaining Equity Shares available for Allotment may be first adjusted against any other category, where the Allotted Equity Shares are not sufficient for proportionate Allotment to the successful Bidders in that category. The balance Equity Shares, if any, remaining after such adjustment may be added to the category comprising Bidders applying for minimum number of Equity Shares.

## RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are FIPB and the RBI.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India ("DIPP"), issued consolidated FDI Policy, which with effect from June 07, 2016 consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on June 07, 2016. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, the Consolidation FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares by an Indian resident to a Non-Resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.
