

'HYPOCRISY AT ITS WORST' India hits back at Pak on cross-border terrorism

Pakistan PM Sharif raised Article 370, J&K issue at general debate of UNGA

PRESS TRUST OF INDIA
UN, September 28

IN A STRONG retort, India has slammed Pakistan in the UN General Assembly, saying its "fingerprints" are on terrorist incidents across the world and the country should realise that cross-border terrorism against India will "inevitably invite consequences". India exercised its Right of Reply in the UN General Assembly on Friday in response to Pakistan Prime Minister Shehbaz Sharif raising the issue of Jammu and Kashmir in his address at the General Debate of the 79th session of the UN General Assembly.

"This Assembly regrettably witnessed a travesty this morning. A country run by the military, with a global reputation for terrorism, narcotics trade and transnational crime has had the audacity to attack the world's largest democracy," First Secretary in India's Permanent Mission to the UN Bhavika Man-

BHAVIKA MANGALANANDAN,
FIRST SECRETARY, INDIA'S PERMANENT MISSION TO UN

A COUNTRY RUN BY THE MILITARY, WITH A GLOBAL REPUTATION FOR TERRORISM HAS HAD THE AUDACITY TO ATTACK THE WORLD'S LARGEST DEMOCRACY

galanandan said, delivering India's Right of Reply. She asserted that as the world knows, Pakistan has long employed cross-border terrorism as a weapon against its neighbours. "It has attacked our Parliament, our financial capital Mumbai, marketplaces and pilgrimage routes," she said, referring to the 2001 Indian Parliament attack and the 26/11 Mumbai terror attacks carried out by Pakistan-based terror groups.

"The list is long. For such a country to speak about violence anywhere is hypocrisy as its worst," Mangalanandan said.

In his address, Sharif raised the Kashmir issue, as expected, and said that to "secure durable peace", India should reverse the Abrogation of Article 370 and enter into a dialogue for a "peaceful" resolution of the issue. He said India has spurned Pakistan's proposals for a mutual "Strategic Restraint Regime". Responding to this reference "to some proposal of strategic restraint", India asserted that there "can be no compact with terrorism. In fact, Pakistan should realise that cross-border terrorism against India will inevitably invite consequences." Reminding the

international community that this was a nation that for long hosted Al Qaeda leader Osama bin Laden, she said Pakistan's "fingerprints are on so many terrorist incidents across the world, whose policies attract the fears of many societies to make it their home.

"Perhaps it should come as no surprise that its prime minister would speak in this hallowed hall. Yet we must make clear how unacceptable his words are to all of us. We know that Pakistan will seek to counter the truth with more lies. Repetition will change nothing. Our stand is clear and needs no reiteration," she said. India stressed that it is even more extraordinary for a country with a history of rigged elections to talk about political choices, that too in a democracy. "The real truth is that Pakistan covets our territory, and in fact, has continuously used terrorism to disrupt elections in J&K, an inalienable and integral part of India," the young Indian diplomat said.

She said it is ridiculous that a nation that committed genocide in 1971 and which persecutes its minorities relentlessly even now, "dare speak about intolerances and phobias".

EU plans Oct 4 vote on Chinese EV tariffs

BLOOMBERG
September 28

THE EUROPEAN UNION is planning to vote on October 4 on whether to impose tariffs as high as 45% on imported electric vehicles made in China, according to people familiar with the matter. Member states have received a draft of the regulation for the proposed measures, the people said.

The vote among the bloc's member states was slightly delayed amid last-minute negotiations with Beijing to try to find a resolution that would avoid the new levies.

Talks between the two sides can continue even if member states adopt the tariffs. The new date could still change, said the people, who spoke on the condition of anonymity.

The vote comes after a probe by the European Commission, the EU's executive arm, found that China unfairly subsidises its EV industry and that tariffs are needed so that European manufacturers aren't at a disadvantage. China denies any unfair activity on its part, and has threatened retaliatory tariffs on European products such as dairy, brandy, pork, as well as cars with large engines.

Hezbollah leader killed in Israeli airstrike

ASSOCIATED PRESS
Jerusalem, September 28

SMOKE ROSE FROM Beirut's southern suburbs on Saturday morning and the streets were empty after the area was pummeled overnight by heavy airstrikes that Israel said killed multiple Hezbollah commanders, including leader Hassan Nasrallah. The Lebanese militant group confirmed the death of its longtime leader, whose killing could dramatically reshape conflicts across the middle east.

Ali Karkar, the Commander of Hezbollah's southern front, was also killed in the attack, the Israeli military said. Abbas Nilforushan, a prominent general in Iran's paramilitary Revolutionary Guard died in the strike too. The group said in a statement that Nasrallah "has joined his fellow martyrs." Nasrallah led the militant group for more than three decades.

Attacks on Hezbollah targets by fighter jets continued into the early hours of Saturday after the army said that it told residents to evacuate three buildings it was targeting.

Hours before the strikes, Prime Minister Benjamin

Netanyahu addressed the United Nations, vowing that Israel's campaign against Hezbollah would continue — further dimming hopes for an internationally backed ceasefire. Netanyahu abruptly cut his US visit short and returned to Israel. More than 720 people have been killed in Lebanon since the conflict escalated Monday, according to Lebanon's health ministry.

The UN said that the number of those displaced by the conflict from southern Lebanon has more than doubled, with more than 2.1, 000 people now displaced. At least 20 primary

healthcare centres have shut down in hard-hit areas of Lebanon, the UN Office for Coordination of Humanitarian Affairs said. Hezbollah began firing rockets into northern Israel in support of Hamas after it stormed into Israel, sparking the Israel-Hamas war.

Top Israeli officials have threatened to repeat the destruction of Gaza in Lebanon if the Hezbollah fire continues, raising fears that Israel's actions in Gaza since October 7 would be repeated in Lebanon.

The Israeli army said that it has hit more than 140 targets since Friday night, including a storage site for anti-ship missiles beneath civilian apartment buildings in Beirut's southern suburbs.

Wimbledon set to expand its campus

ASSOCIATED PRESS
London, September 28

A PROPOSAL BY Wimbledon organisers to expand the site of the Grand Slam tournament with 39 new tennis courts has been given the green light by local authorities.

The All England Club's plans — which include a new 8,000-seat show court with a retractable roof — were approved Friday by the Greater London Authority despite protests by local residents.

The planned expansion in Wimbledon Park, which is adjacent to the All England Club, would allow Wimbledon's qualifying tournament to be held on site rather than at nearby Roehampton Community Sports Centre. But some locals have objected to the plans over concerns about the environmental impact.

Protesters assembled outside City Hall ahead of the hearing on Friday and a number spoke in the chamber during a morning session lasting more

than three hours. But Jules Pipe, London's deputy mayor for planning, said "the proposed development would facilitate very significant benefits. I agree with my officers that these benefits clearly outweigh the harm."

Debbie Jevans, the chair of the All England Club, promised that the project "will be delivered with a meticulous attention to detail and the utmost respect for both our neighbours and the environment."

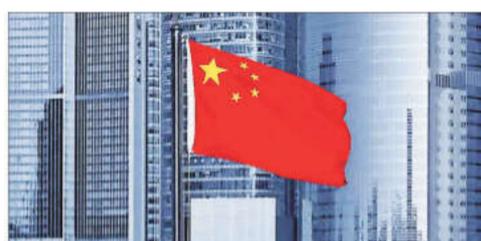

In a global game of influence, China turns to fake news

ASSOCIATED PRESS
Washington, September 28

WHEN VETERAN US diplomat Kurt Campbell travelled to the Solomon Islands to counter Beijing's influence in the South Pacific country, he quickly saw just how far China would go to spread its message.

The Biden administration's Asia czar woke up one morning in 2022 to a long article in the local press about the US running chemical and biological labs in Ukraine, a claim that Washington calls an outright lie. Started by Russia, the false and incendiary claim was vigorously amplified by China's vast overseas propaganda apparatus.

It was another example of

US catches attention of China using websites purporting to be legitimate news outlets to deliver pro-China coverage

"clearly effective Russian and Chinese disinformation," Campbell told the Senate Foreign Relations Committee in July. Two years later, the claim still reverberates online, demonstrating China's sprawling effort

to reshape global perceptions.

The campaign, costing many billions per year, is becoming ever more sophisticated thanks to artificial intelligence.

China's operations have caught the attention of intelli-

gence analysts and policymakers in Washington, who vow to combat any actions that could influence the November election or undermine American interests. The key tactic? Networks of websites purporting to be legitimate news outlets, delivering pro-China coverage that often parallels official statements and positions from Beijing. Shannon Van Sant, an adviser to the Committee for Freedom in Hong Kong Foundation, tracked a network of dozens of sites that posed as news organizations. One site mimicked *The New York Times*, using a similar font and design in what she called an attempt at legitimacy. The site carried strongly

pro-Chinese messages. When Van Sant researched the site's reporters, she found no information. Their names didn't belong to any known journalists working in China, and their photos bore telltale signs of being created with AI.

Liu Pengyu, spokesman for

the Chinese Embassy in the US, said allegations that China uses news websites and social media to spread pro-Beijing information and influence public opinion in the US "are full of malicious speculations against China, which China firmly opposes."

Thyssenkrupp Steel prepares staff for big job losses

BLOOMBERG
September 28

THYSSENKRUPP'S 27,000 STEEL workers must brace for deep cuts, Dennis Grimm, spokesperson for Thyssenkrupp Steel Europe's (TKSE) executive board said, setting the stage for significant layoffs.

TKSE is emerging from a major clash with its parent over funds that are required in a proposed 50:50 joint venture structure with Czech billionaire Daniel Kretinsky, who already owns a 20% stake in the steel business. He said, "Tough cuts are necessary. We have to become more profitable. The current market situation has deteriorated again in recent months, and unfortunately there is no recovery in sight." TKSE is emerging from a major clash with its parent over funds that are required in a proposed 50:50 joint venture structure with Czech billionaire Daniel Kretinsky, who already owns a 20% stake in the steel business. Grimm said that currently a new business plan was being developed for TKSE and it was unclear how many jobs could have to go.

"We can't yet put an exact figure on how many people we will employ once the business plan has been finalised and negotiations with the employee representatives have been completed. But it will be fewer than today," Grimm said.
